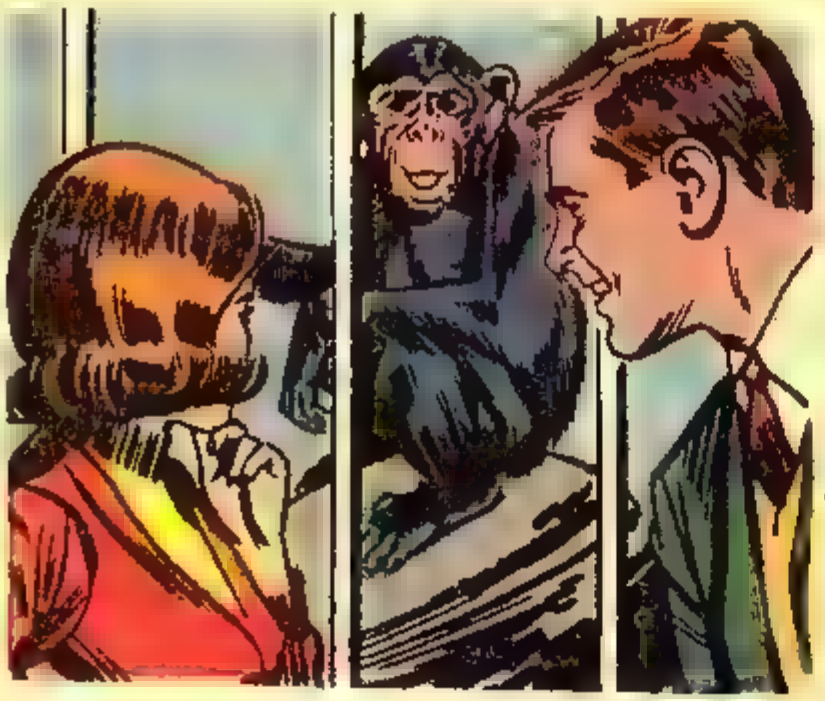
KEYS OF KNOWLEDGE

THE CHIMPANZEE

Chimpanzee, the most intelligent and advanced of all the animals, is an African ape, which is related to the gorilla family.

In thick, dense jungles, chimpanzees are found nesting in high trees. They sometimes live in bands of as many as 40 animals.

One of the jungle's greatest wanderers, they often roam far and wide through the jungle hunting fruit, eggs and insects for food.



They are known to be great imitators. Many chimpanzees have been trained for appearances on the stage, movies and TV.

© 1971, WESTERN PUBLISHING COMPANY, INC.

They have a loud shrill cry that can be heard from a great distance. They are excitable and curious with amazing memories.
